

Rise Above It / *Shimon Smith* (Capo 4)

When I'm down (when I'm down), When I'm blue (when I'm blue *etc...*)

When they claim, That's not true

I'll recall That I'm strong
I can tell right from wrong

You got to rise above it
You got to let yourself shine

Oh no you won't let nothin' stop you

You know that soon you will be fine

You got to push through it all

You gotta keep standin' tall
You can rise above it all the time x2

When I'm tired, And I don't belong
When I'm right, And you're wrong
I'll find strength, Patience pays
Oh God works In mysterious ways **You got to rise above it...**

So rise up

Dry your tears

Though it may not seem like much

We all share the same fears **You got to rise above it...**

You got to rise above it, You got to let yourself shine

Oh no you won't let nothin' stop you, You know that soon you will be fine

You got to push through it all, You gotta keep standin' tall

You can rise above it all the time, You can rise above it all the time,

You can rise above it all the time
